

movicol paediatric plain

(No. 103/04)

Norgine Ltd

Product Update

12 July 2004

The Scottish Medicines Consortium (SMC) has completed its assessment of the above product and advises NHS Boards and ADTCs on its use in NHS Scotland. The recommendation is summarised as follows:

ADVICE: following an abbreviated submission

Movicol Paediatric Plain is accepted for use in Scotland as an alternative to Movicol Half for the treatment of paediatric faecal impaction. The new product is a reformulation of an existing paediatric presentation of macrogol to remove flavour and sweetener, and no clinical data have been considered in drafting this recommendation.
