

micronised progesterone 100mg capsules (Utrogestan®)

Besins Healthcare UK Limited

04 November 2022

The Scottish Medicines Consortium (SMC) has completed its assessment of the above product and, following review by the SMC executive, advises NHS Boards and Area Drug and Therapeutics Committees on its use in NHSScotland. The advice is summarised as follows:

ADVICE: following an abbreviated submission

micronised progesterone (Utrogestan®) is accepted for use within NHSScotland.

Indication under review: for adjunctive use with oestrogen in post-menopausal women with an intact uterus, as hormone replacement therapy (HRT).

Micronised progesterone provides an additional treatment choice in the therapeutic class of progestogens.

Advice context:

No part of this advice may be used without the whole of the advice being quoted in full.

This advice represents the view of the Scottish Medicines Consortium and was arrived at after evaluation of the evidence submitted by the company. It is provided to inform the considerations of Area Drug & Therapeutics Committees and NHS Boards in Scotland in determining medicines for local use or local formulary inclusion. This advice does not override the individual responsibility of health professionals to make decisions in the exercise of their clinical judgement in the circumstances of the individual patient, in consultation with the patient and/or guardian or carer.

This assessment is based on data submitted by the applicant company up to and including 09 October 2022.
